# THE MOST ECO FRIENDLY TEE

FWJ1972

24 PCS MIN  
INCLUDES 1- 3 COLOR  
DECORATION  
ON ONE LOCATION

SETUP AND FREIGHT ADD'L

## IN THE INDUSTRY!

**I'm 100% Recycled!** Recycled cotton is a transformation of used cotton fabric into fibers that can be remade into products like this t-shirt. This is also known as reclaimed or regenerated cotton. We blend our recycled cotton with recycled polyester and rayon to bring a fully recycled shirt to you and your customer. Why is this important? Reclaimed manufacturing can reduce water consumption by 60 gallons per shirt and reduce the carbon footprint impact by 45%. This 100% recycled tee keeps others out of the landfills.
